

Thinking ahead. Focused on life.

Veraview X800

Morita's Veraview X800 has been awarded the renowned iF Design Gold Award for 2017.

With an impressive history spanning over 50 years, the German iF Design Award is one of the most prestigious awards globally, adjudicated by leading design experts from all over the world. On an international scale, more than 5,500 products competed for awards this year, with the Veraview X800 receiving the highest accolade in the field of product design. In addition to its advanced features and image quality, its superb and sophisticated design was highly praised by judges from all over the world.

This is the first time a dental X-ray apparatus has been presented the prestigious gold award.
